

**Thesis Proposal
CONSULTATION SHEET**

Project Title: Addressing Typographic Hallucination in Generative AI Images: An Open-Set Metric Learning Approach to Font Style Recognition	Week # 4 Date: July 21, 2026	Group Members: 1. Janritch D. Diputado 2. Matt Erron G. Cabarrubias
Progress Report (based on the adviser's previous comments/suggestions) by Students 1st meeting (June 30): • Justify why 50-100 fonts. • Mention all fonts classified. • Format as a 1-page file. • Include General and specific objectives. • Note that data is classified through Google. • Justify commonly used fonts and narrow to just English.		
Recommendations by Adviser 1st meeting (June 30): Conceptual Framework: • Remove "graphic designer". • Enhance label details and readability. • Relocate display results section. Appendix: Add expert evaluation form. • Define the maximum similarity score threshold. • Establish protocol for handling low max similarity fonts and expert validation on unknown fonts. Documentation: Include missing CVs.
