SUGGESTIONS	NOT APPLICABLE	COMPLIED WITH

5. Handle text regions containing more than one font family; system must not silently name the majority typeface.		49-51	
6. Make the framework reproducible / followable by an outside researcher.		53-55	
7. Provide evidence that the mixed-typography verdict works.		73	
8. Justify the backbone selection, compare against alternatives instead of assuming DINOV2.		75	
9. SRS must match the revised pipeline.		94, 97, 99, 104, 110
